

REMARKS

It is requested that the foregoing amendment be made under 37 CFR 1.312. The amendment, which is necessary to complete the cross-reference to the parent application, does not affect patentability of any claim and it is accordingly requested that the amendment be entered without withdrawing the application from issue.

This application claims priority of two Australian patent applications and the record of the parent application reflects that copies of the certified copies of the Australian applications have been received from the International Bureau. The record in this application does not contain an acknowledgement of the claim of priority or confirmation that copies of the certified copies of the priority documents have been received in the parent application. It is requested that the examiner should explicitly acknowledge the claim for priority and that copies of the certified copies of the priority documents have been received in Application No. 10/130,095.

Respectfully submitted,

John Smith-Hill
